“The Medical Student Course in Valencia was an outstanding opportunity to meet the leading specialists and professionals in the field of oncology, learn from them and get inspired. Meeting future colleagues and sharing intercultural experiences was invaluable! Friendly, welcoming and inclusive atmosphere made this event exceed everyone's expectations. It was an amazing experience which led potential future oncologists to realise that this is the specialisation they really want to devote their life to.”

**Anna Marija Lescinska**, Valencia 2019  
Latvia

“The ESMO-ESO Course has been a spectacular experience! The speakers are absolutely outstanding, the atmosphere is super inspiring, and the course is perfectly well-organized. Furthermore, it is a unique opportunity to meet and discuss with fellow medical students from all over Europe. I could not recommend this course more!”
